

Career Cruising! My Educational Development Plan

The State of Michigan requires all students to create an Educational Development Plan (EDP) beginning in 7th grade. The purpose of the EDP is to help students explore and identify their interests and strengths in relationship to possible careers that are a good match. Through the EDP process, each student becomes more aware of the connection between a career goal and the requirements for attaining that goal.

Career Cruising is an online program that allows us to create our EDP in an easy and complete way.
